15 March 2023

EU4Health Programme (2021-2027)

Info Session - Austria

15 03 2023

Chiara Giusto (EU4Health, HaDEA A2)

European Commission

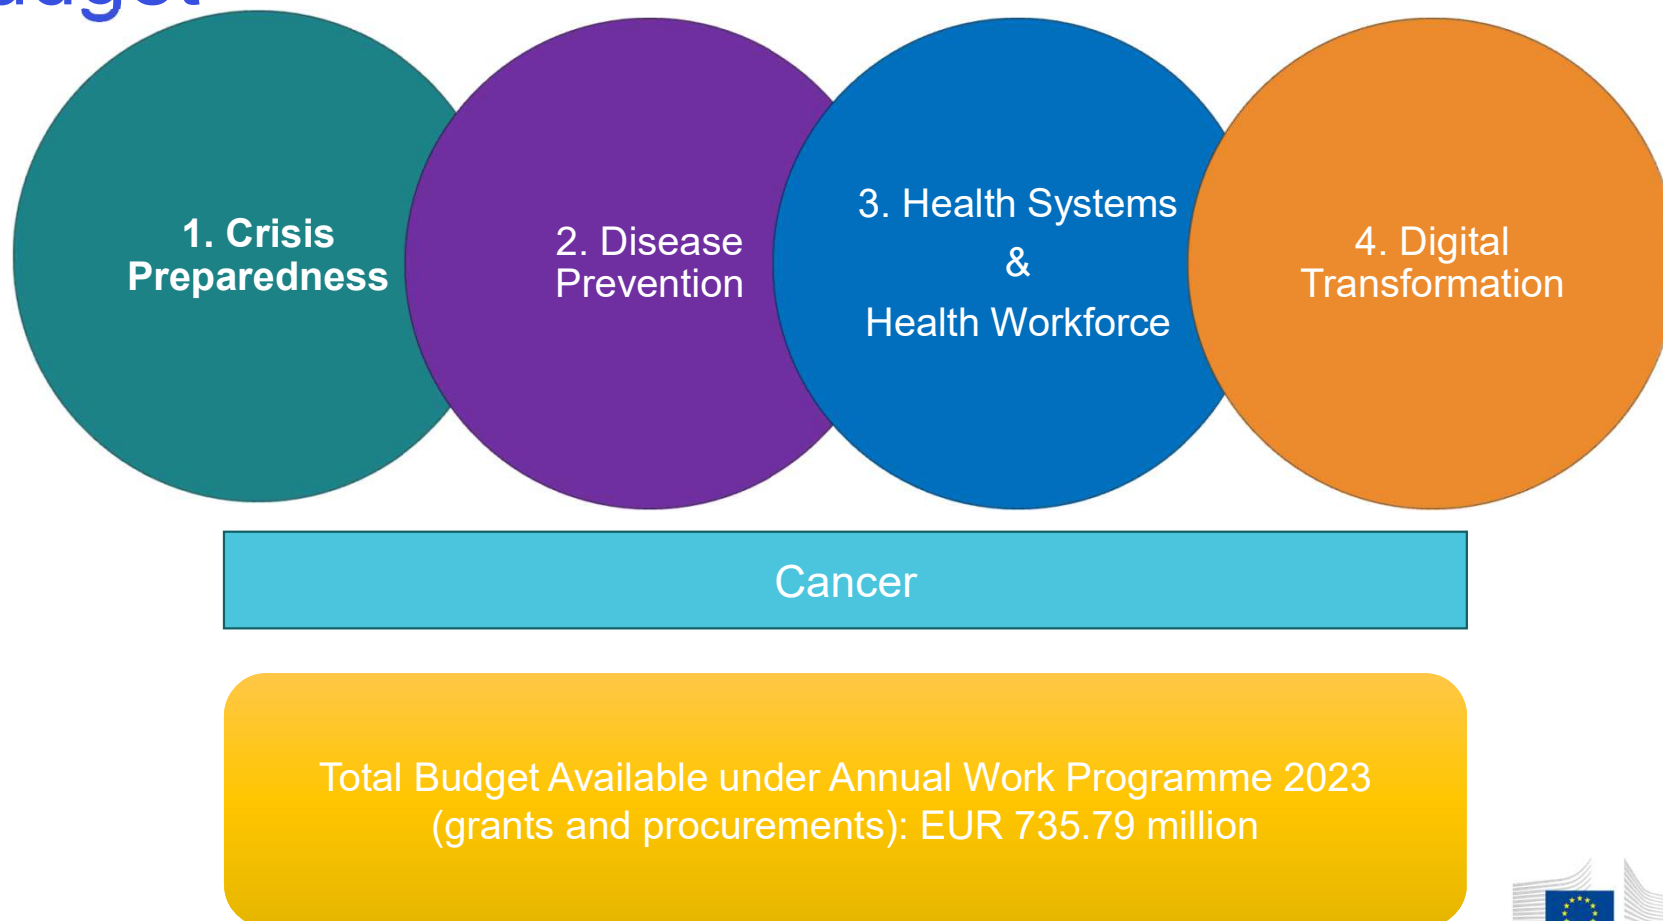

Health and Digital Executive Agency (HaDEA) – Brussels

Public Procurement – main features

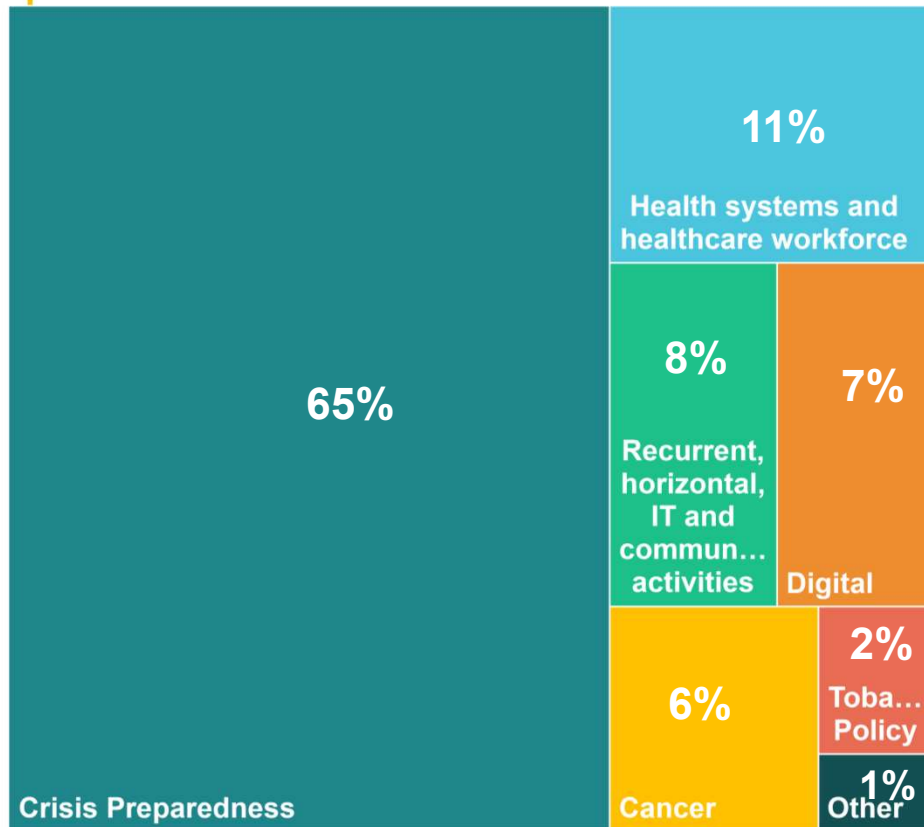

Purchase of works, supplies and services by public bodies

- Initiative and control lie entirely with the contracting authority who produces the detailed specifications.
- The results of the action remain the property of the contracting authority.
- The contractor's invoice is only paid in exchange of the delivered services, as per the contract signed by both parties.

Annual Work Programme – Strands and budget

Annual Work Programme 2023 – Procurement budget

The budget allocated to procurement procedures under the AWP 2023 of the EU4Health is of **176.4 million EUR** and it accounts for **24.6%** of the total indicative budget.

Procurements – which contracts in HaDEA?

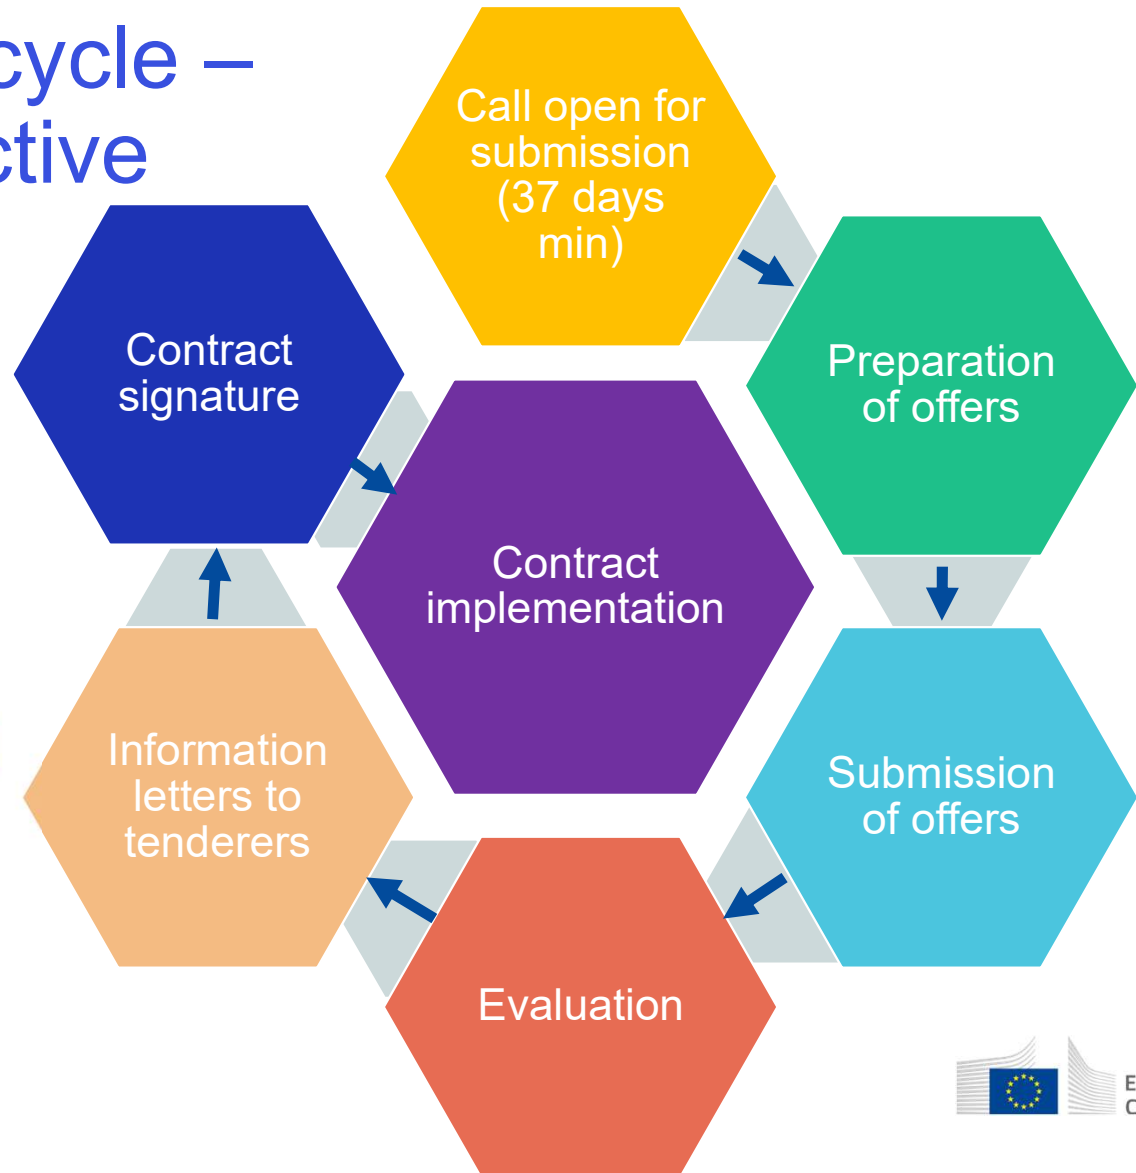

Direct contracts

Any economic operator who is interested may submit a tender.

Framework contract specific contract

Establishes the general outline of the services or supplies to be delivered. Requires an additional step to make the actual purchase, i.e. a request for service. The invitation to submit a tender is only sent to the economic operators that are part of the framework contract.

Procurements life cycle – Applicants perspective

From submission of offers to the implementation of contracts

Prepare and submit your offer (open procedure)

FAQ

What is TED eTendering?

TED eTendering is an EU institutions' eProcurement platform based on EU Directives on public procurement. Allowing free electronic access to call for tenders' documents such as contractual documentation, technical specifications, annexes, questions and answers etc., TED eTendering effectively represents an added-value extension to TED (Tenders Electronic Daily), the online version of the "Supplement to the Official Journal of the European Union".

How can I benefit from TED eTendering?

TED eTendering provides free electronic access to calls for tenders published by EU institutions, agencies and other bodies. It is integrated and synchronized with TED eNotices and TED website, where public procurement notices are published.

TED eTendering users can benefit from the following services:

Contracting Authorities

- A collaborative eProcurement environment for preparing and publishing call for tenders' documentation
- Easy management of the preparation and publication of questions and answers
- Synchronization with the contract notice filled in on TED eNotices and published on TED website
- Automatic publication of the call for tenders on the same day as the contract notice
- Generation of reports, statistics on documents downloaded, subscribers etc.
- Possibility to publish calls for tenders for all types of procedures, even lower value procedures independently form TED website

Tender specifications

Prepare your
offer

Tenderers should **read carefully** the tender specifications, which include:

- Description of the service / supply to be purchased by the contracting authority
- Procedure used for the procurement (open / restricted / competitive with negotiation)
- Minimum requirements, selection and exclusion criteria
- Award criteria
- List of documents that the tenderer will need to submit with its offer

General information on tendering

- Economic operators can submit a tender either as a **sole tenderer** or as **a group of tenderers**.
- **A joint tender** is a situation where a tender is submitted by a group (with or without legal form) of economic operators regardless of the link they have between them. The group as a whole is considered a tenderer.

Sub-contracting

- **Subcontracting** is the situation where the **contractor enters into legal commitments with other economic operators which will perform part of the contract on its behalf**. The contractor retains full liability towards the Contracting authority.
- All contractual tasks may be subcontracted unless the Technical specifications expressly reserve the execution of certain critical tasks to the sole tenderer itself, or in case of a joint tender, to a member of the group.
- Tenderers are required to give an **indication of the proportion of the contract that they intend to subcontract**, as well as to **identify and describe briefly the envisaged contractual roles/tasks of subcontractors** meeting any of these conditions for performance of the contract as a whole.
- Any such subcontractor must provide the tenderer with a **commitment letter**.
- **Changes concerning subcontractors identified in the tender** (withdrawal/replacement of a subcontractor, additional subcontracting) **during the procurement procedure** (after the submission deadline and before contract signature) **require the prior written approval of the Contracting authority** subject to verifications.

Questions and answers

- Contacts with tenderers are **forbidden!**
- The only tool available is the **Q&A section on e-Tendering**

e-Submission service

The e-Submission service of the European Commission allows participants to prepare and submit their responses to procedures electronically in a structured and secure way.

• Make sure that you read the **System Requirements** before you start, and that you submit on time.

To use e-Submission, participants (all members of a consortium) must be registered in the Commission online register of organisations participating in the EU grants or procurement procedures. After registration, each organisation obtains a Participant Identification Code (PIC). Registration is free of charge and takes about 5-10 minutes to complete. To check if an organisation is already registered in the Commission organisation register or to register a new organisation, [click here](#).

Yes, I have read and I accept the **Terms and Conditions** and I acknowledge that I have read and understood the **Data Protection Notice**

Evaluation of tenders

- The evaluation of the tenders that comply with the submission conditions consists of the following elements:
 - Check if the tenderer has access to procurement (see Section 2.2)
 - Verification of administrative compliance (e.g. signed by duly authorised representative(s) of the tenderer)
 - Verification of non-exclusion of tenderers on the basis of the exclusion criteria
 - Selection of tenderers on the basis of selection criteria
 - Verification of compliance with the minimum requirements defined in the tender specifications
 - Evaluation of tenders on the basis of the award criteria

Exclusion & selection criteria

- The objective of the exclusion criteria is to assess whether the tenderer is in any of the **exclusion situations** listed in Article 136(1) of the Financial Regulation. As evidence of non-exclusion each tenderer needs to submit with its tender a Declaration on Honour (Annex 2)
- The objective of the selection criteria is to assess whether the tenderer has:
 - **Legal** and **regulatory** capacity
 - **Economic** and **financial** capacity
 - **Technical** and **professional** capacity

Informing the tenderers

- **ALL** tenderers are informed about the results of the procedure, whether they are successful or unsuccessful
- The letter will include the outcomes of the assessment of the offer they have submitted

Contract signature

- The successful tenderer will receive the contract for their signature
- HaDEA uses QES (qualified electronic signature)
- If the contractor does not have QES, they will have to sign in blue ink and send the signed contract to HaDEA for a countersignature
- The contract enters into force when both parties will have signed it
